

BIOGRAPHY DORIVAL JR.

Dorival has a very solid career, 18 years as a professional, 16 finals in competitions, 11 victories and 5 runner-up finishes. At the 2018 World Cup, he started or worked with 14 players at his clubs.

A very unique style, he has always invested in the individual growth of the athlete, giving a lot of strength to those who are already at the club. Always with a very offensive game model.

Nowadays in football, it is difficult to find people with these characteristics. A professional: Family, disciplined, focused, who has already overcome major challenges in life, including cancer and, above all, with a desire to teach and always contribute.
